Environmental policy statement

Reeves Engineering is committed to undertake its business in a manner that recognises the importance of environmental protection and sustainability. We are committed to minimising environmental impacts in all our operations by:

- Complying with all applicable laws, regulations and statutory obligations relating to environmental issues
- Managing environmental and related issues in accordance with any client requirements, policies and procedures
- Maintaining, monitoring, reporting, reviewing, auditing and continually improving the environmental management system and programs that are consistent with certification requirements of AS/NZS ISO 14001
- Providing sufficient and suitable resources to implement and maintain the environmental management system
- Applying waste, energy and water ministration principles
- Taking all practicable steps to prevent pollution and other adverse affects
- Educating and training our people to continually improve awareness, skills and knowledge of environmental issues and practises
- Establishing and reviewing meaningful and accurate environmental performance measures, taking action to improve outcomes and communicating appropriately to our people
- Identifying, reporting, investigating and resolving all environmental incidents and non-conformances, and taking action to prevent recurrence
- Reporting to the board on environmental performance, including infringements and regulatory non-compliance
- Pursuing environmental initiatives and programs that are consistent with the Reeves Engineering approach to sustainability
- Communicating regularly with community groups and key stakeholders on environmental issues
