Quality Policy Statement

Reeves Engineering is committed to meeting the needs and expectations of our clients by the consistent implementation of the tried and proven Quality Management System.

This is achieved by:

- Incorporating quality management as an integral part of Reeves Engineering risk management.
- Providing the framework of procedural guidelines necessary to enable our people to competently perform their work responsibilities.
- Facilitating the early determination of client's key expectations and ensuring regular feedback to measure our performance in meeting these expectations.
- Providing the necessary resources including suitably qualified, skilled and experienced people to implement and maintain the quality management system.
- Ensuring compliance with statutory obligations, standards and codes of practice relevant to quality management.
- Performing appropriate education and training to continually improve our people's skills, awareness and knowledge of quality issues and practices.
- Identifying, reporting, investigating and resolving all non-conformances and taking action to correct and prevent recurrence.
- Establishing, reviewing and communicating quality performance measures and taking action to continually improve outcomes.
- Evaluating, monitoring and reviewing the quality performance of consultants, subcontractors and suppliers and implementing effective communication with them on quality and compliance issues.
- Maintaining third party certification of the company's quality management system to AS/NZS ISO 9001:2008.
